

Cargo/Freight

At Aklak Air, we are committed to providing our customers with dependable, cost-effective cargo and freight services. In collaboration with our partners, Aurora Expediting Services Limited (AES) located in Inuvik and their parent company, Braden Burry Expediting (BBE) headquartered in Edmonton, we provide an integrated suite of services to ensure your cargo and freight arrive in tact and on time.

Services include:

- Cargo and ground-handling services
- Seamless interline freight movement (Canadian North, Air Canada, First Air, Air North and Northwest Transport)
- Cargo warehousing at the Inuvik Airport
- Charter loading
- 24 hour expediting and hotshot/pick-up and delivery services in Inuvik

AES and BBE utilize a web-based integrated logistics management system to track your freight. They are outfitted with a modern fleet of diesel trucks, light and heavy duty forklifts and employ an experienced, skilled workforce to ensure service levels remain high. As long-term partners in providing consistent, reliable transportation solutions for your business, we are confident in AES's and BBE's service capabilities and recommend them for all your cargo expediting requirements.

To make arrangements for shipping cargo, please call (867) 777-2309.
